DETAILED ACTION

Allowable Subject Matter

1. Claim 1, 2, 5, 6, 11, 13, and 15-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

U. S. Patent No. 5,388,048 to Yavnayi et al. is the reference closest to the claimed invention. Yavnayi et al. disclose a method for detecting an object, comprising: emitting a light pulse; receiving a reflection of said light pulse; indicating a presence of the object from said received light pulse; and selecting suitable values for the first and second resistors, respectively, to increase or decrease the sensitivity of the rangefinder receiver. However, Yavnayi et al. do not teach adjusting sensitivity of said indicating step based on an elapsed time from said emission; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
